

Description

Centrecoat R21 is a water based quartz and solid surface cleaner containing a blend of surface active ingredients that is easy and safe to apply.

Suitable for use on many surface types such as quartz worktops, polished granite, polished marble, uPVC, stainless steel, painted surfaces, wood surfaces, brass, copper, zinc and aluminium.

Centrecoat R21 is ideal for worktops and associated surfaces that are exposed to high and regular use. Enabled the easy cleaning of soiling oils and grease.

Suitable for both vertical and horizontal surfaces, for example worktops and floors. Non caustic.

Application

Spray an even, light application to a clean and dry surface from a distance of 10 - 15 cm. Leave to sit for 30 to 40 seconds. Remove excess by wiping with a dry soft cloth. Within minutes, buff the whole surface using a fresh dry, soft cloth. Do not use below 4°C. Avoid use in rainy conditions.

Technical Data

- ▶ Blend of surface active agents
- ▶ Clear colourless liquid
- ▶ Density: 1.0
- ▶ pH: 7

Coverage

5 to 10m² per 500ml container. Application rate depends on porosity and texture of the substrate.

Clean Up

After use, clean tools and equipment with water immediately after use.

Storage

Keep in a dry place, at temperatures between 5°C and 30°C.

Shelf Life

24 months following the production date if stored in original unopened container.

Packaging

Available in 500ml trigger bottles
